Take Dr. J. C. Cheney's Family Pills for constipation.

D. C. JACKLING
COMING SOON

Jack Frost's Ice Factory Has Been Started Again at Hayden. Memphis Visitors at Foster Home. Mrs. Janney Arrives.

HAYDEN, ARIZ., Feb. 23.—Hayden is living in expectation of another visit of a number of the higher officials of the copper interests located here. D. C. Jackling and party will probably be here this week. A. S. & H. officials are also expected.

For several days we have been having another touch of winter. It has been cold enough to produce natural ice through the nights, and Haydenites are beginning to think our climate is growing more severe.

Mr. and Mrs. Edwards of Memphis, Tenn., are visiting Mrs. Edwards' sister, Mrs. D. Foster, here. The Edwardses are newly-weds and spending their honeymoon here.

W. A. Seldon left Friday for Nebraska, where he will make his home, according to his present plans. Mr. Seldon's friends hope that he will change his mind later and decide, as many do, that there is no place like Arizona.

Frank K. Poe is in Phoenix on business for a few days.

Mrs. Wm. H. Janney arrived Thursday and will make her home here. Mrs. Janney is the wife of the mill superintendent and has formerly lived in Salt Lake City.

BOOM TOWN IN
FARMING LAND

Settlers at Chandler Are Living in Tents Pending the Building of Houses For Their Accommodation.

MESA, ARIZ., Feb. 23.—J. E. McCord, of Texas, accompanied by his wife and daughter and J. A. Huffy, a prominent real estate man of San Diego, Cal., who represents the Mesa Improvement company in that city were visitors at the townsite of Chandler last week. Mr. McCord is a prominent banker of Texas and was enthusiastic about the future of Chandler lands and the prospect of the new town site. Mr. McCord says the natural conditions here for farming, level land, rich soil, and an abundance of water combine to make this one of the finest valleys he has ever seen. Towns and cities are the product of natural resources of the country surrounding them and judging from the outlook this valley with its resources and railroad facilities, Mr. McCord says, Chandler should be a thriving town in a very short time.

R. P. Peeler and R. B. Morris, of Arkansas, who recently purchased 40 acres in section 32, Chandler ranch, arrived in Chandler last week on their way to their place where they will remain permanently.

A. Bargman and party of government surveyors are staying in Chandler.

Mr. Lewis has a force of men and teams preparing ditches for the new settlers.

A number of improvements are in and around the new townsite of Chandler, prominent among them being the construction of a number of tent houses for the accommodation of land seekers, including a reading and dining room provided with electric lights and modern conveniences, which present a very attractive appearance.

NEW BELL SYSTEM.

In addition to the automatic block signal system over the lines of the Southern Pacific there has been installed for the further protection of passengers a bell system for the regulation of the speed of trains across the trestle over Great Salt Lake. The device is simple but it protects the passengers on this costly piece of engineering work. The trestle is twelve miles long and as a train enters or leaves it a bell is rung in the station at Midvale. Twelve miles per hour is the speed limit for freight trains, and 20 miles per hour for passenger trains. The agent at Midvale forwards a report of the trains that pass over this long bridge every day to the superintendent of the division and an accurate record is kept in this manner. The engineers taking trains across the lake have become so proficient in regulating the speed of their locomotives that they now make the run in precisely the allotted time and are always on time into Ogden.

BISHOP ATWOOD WILL
TALK TO LOCAL MEN

Subject Will be on Opportunities That Are Lost—Boys' Meeting on for Sunday.

Bishop J. W. Atwood will address the men's meeting at the Y. M. C. A. Sunday afternoon at 4:20. His subject will be "The Lost Opportunity." The bishop is one of the most interesting speakers in the valley and should have a large audience.

The boys' meeting at 3 o'clock is to be addressed by Dr. M. J. Exner, physical director of the Y. M. C. A. at Shanghai, China, and who is home on a furlough. The doctor is spending a short time in the valley enjoying the splendid climate and is making his home at the association very naturally.

His talk to the boys will be at 3 o'clock and will be illustrated with lantern slides, blackboard illustrations, chemicals, etc. Every boy in Phoenix should hear him for he is a most interesting talker on practical subjects.

HAD PARTY;
WATCH GONE

Tale of an Afternoon on the High Seas Which Ends in Calls for Assistance and a Gum Shoe Expedition.

F. L. LaCora fell in with A. C. Willis yesterday. Mr. Willis comes from the coast and was at one time the employer of LaCora. They had a good time. When it was over Willis was shy one watch and put up a wall to the police.

Patrolman Bradley had seen the two together, taken a long slant at LaCora and remembered him. Willis said that LaCora had reached into his coat, taken the watch from his vest pocket and broken the chain. He showed a piece of the chain as evidence. Bradley went out on a scouting tour, spent two hours looking around the town and finally found LaCora playing pool. He did not have the watch, but did have the rest of the chain. He was arrested.

NOWHERE IN ALL THIS WHITE WORLD

Will you find white merchandise to equal ours Nowhere in the Southwest are "white" methods so much in evidence as at Korrick's. You will not find merely a few leaders at seemingly low prices, but every "white" article marked at a price that will conclusively prove our leadership in point of value as well as quality.

Visit this store today—do not delay—for not in years have we gathered so vast, so good a stock of white merchandise at prices that mean so great a saving to our patrons. Now read:
